

# Achieving Sales Goals with Customer-Centric Selling Techniques — Activities

Four in-class **role plays** — one per Learning Unit. Each uses a realistic, self-contained Singapore sales scenario (Sunrise Builders, Northlight Retail, Harbourfront Living and a Bukit Timah homeowner) and practises a one-to-one sales conversation built on the course's discovery, closing and objection-handling techniques.

## What each activity folder contains

| Artefact                            | What it is                                                                                                                 | Who uses it   |
|-------------------------------------|----------------------------------------------------------------------------------------------------------------------------|---------------|
| ANN-Facilitator-Guide-*.docx / .pdf | Purpose, materials, set-up, scenario, the numbered run-sheet with facilitator notes, timing, debrief and success criterion | Trainer       |
| ANN-Learner-Worksheet-*.docx / .pdf | The scenario, the steps, and a working space to capture the artefact and prompt answers                                    | Learner       |
| ANN-Checklist-*.docx / .pdf         | Criteria table to tick before the debrief, plus feedback                                                                   | Learner group |

The **detailed step-by-step instructions live here and in the Learner Guide — never on the slides**. The trainer facilitates the scenario, roles and discussion from the deck while learners work from these sheets.
